PROFILE

I'm a full-stack developer with over 2 years of experience in building dynamic web applications. I specialize in Angular and React for front-end development, and Node.js, MySQL, PostgreSQL, and MongoDB for back-end solutions. I thrive on solving complex problems and creating efficient, user-friendly interfaces. I'm passionate about delivering high-quality work that drives success and innovation in every project I undertake.

SKILLS

Angular
React
Node
MySQL/PostgreSQL
RESTful API Development
Docker
Heroku
AWS
Problem-Solving

EDUCATION

University of Engineering and
Technology Peshawar
2021-2025
BS in Computer Science

EXPERIENCE

Full Stack Developer (Efani)

April 2023-Present (1 yr 5 mos)

I've developed applications using the MEAN stack, showcasing my skills in Node.js, Angular, TypeScript, PostgreSQL, Stripe for payments, and Git for version control. I focus on building scalable backend APIs, ensuring that the web applications I create are fast and efficient. I manage databases with precision, designing effective schemas in PostgreSQL and working well with both NoSQL and SQL databases. Throughout my work, I consistently deliver high-quality results, meeting or exceeding project expectations and deadlines.

MERN Developer (Inqiludio Digital)

Sep 2022- April 2023 (8 mos)

I've developed several applications using React.js, focusing on user interfaces, data visualizations, and dynamic web components. I built scalable APIs with Express.js, using Node.js to create fast and efficient web applications. I have experience with both NoSQL and SQL databases, like MongoDB and MySQL, designing schemas that meet project needs. Throughout my work, I consistently delivered high-quality results that met or exceeded expectations and deadlines.
